XT-40S Ceranamel™

XT-40S Ceranamel™ exterior Silicone Modified Polyester (SMP) is a custom hybrid topcoat. When combined with DC477 Global Primer, this coating system offers the highest expectations for long term field performance while retaining the best results for color and gloss retention.

XT-40S Ceranamel™ is available in ceramic and "Cool Roof" pigments and is Energy Star and Cool Roof Rating Council compliant. A wide variety of colors are available as well as gloss, low sheen applications. The XT-40S Ceranamel™ system provides the best hardness to flexibility ratio when compared to other competitive systems in the marketplace. The system provides for the ultimate protection against scratching, marring and transit abrasion.
